TITLE INDEX

Volume 52

1980

A

A consistent methodology for wasteload allocations (Hays) (Communication) 2994
A figure worth thousands of words (Editorial) 1
A focus on Japan (Editorial) 841
A look at self-supporting utilities (Monitor) .. 2624
A model for evaluating the dispersion of wastewater plant odors (Balling, Reynolds) ... 2589
A strained partnership (Editorial) 2417
A survey of phosphorus removal in lower Great Lakes municipal treatment plants (Switzenbaum, DePinto, Young, Edzwald) (Feature) 2628
A synopsis of perspectives on the innovative and alternative technology program (Alleman, Price) (Feature) 460
Activities of the Japan Sewage Works Association (Terashima) (Feature) 843
Agricultural runoff during a drought period (Schepers, Andersen, Schuman, Vavricka, Wittmuss) 711
Airborne bacterial densities at an activated sludge treatment plant (Fedorak, Westlake) 2185
Albany, N.Y., Operation Reports 642
Alternative fuels for multiple-hearth furnaces (Bracken, Lawson) 791
Anaerobic attached-film expanded-bed reactor treatment (Switzenbaum, Jewell) 1953
Anaerobic phenol biokinetics (Neufeld, Mack, Strakey) 2367
Anaerobic rotating biological contactor for carbonaceous wastewaters (Tait, Friedman) 2257
Analysis and sample stability of cyanides in industrial effluents (Owerbach) 2647
Analysis of non-point pollution export from small catchments (Griffin, Grizzard, Randall, Helsel, Hartigan) 780
Attractions of Las Vegas (Editorial) 2303
Autoheated aerobic thermophilic digestion with aeration (Jewell, Kabrick) 512
Automatic water quality analyzers for wastewater collection and treatment (Murakami) 938
AWT: Black box or Pandora's box (Monitor) 2304

B

Bacterial aerosols produced from a cooling tower using wastewater effluent as makeup water (Adams, Garbett, Rees, Lewis) 498
Bacterial growth inhibition test (Alsop, Waggy, Conway) 2452
Bactericidal agents in wastewater lagoons and lagoon design (Moeller, Calkins) 2442
Biofiltration design based on volumetric loading (Oleszkiewicz) 2906

C

Calorimetric studies of biodegradation processes in biological wastewater treatment (Fortier, Reboul, Philip, Simard, Picker, Jolicoeur) 89
Carbon adsorption enhancement with ozone (Culp, Hansen) 270
Case study of prediction of sulfide generation and corrosion in sewers (Meyer) 2666
Challenging combined sewer problems in Japan (Kuribayashi, Nakamura) 890
Characterization of industrial wastes by evaluating BOD, COD, and TOC (Hill, Spiegel) .. 2704
Chris Beck: water pollution control in the 1980s (Monitor) 222
Clostridium perfringens as a water pollution indicator (Bisson, Cabelli) 241
Comparative disinfection by bromine chloride and chlorine of viruses and bacteria in wastewater (Fujioka, Burbank, Loh) 2581
Comparative evaluation of anaerobic toxicity by batch and semi-continuous assays (Stuckey, Parkin, McCarty, Owen) 720
Comparative performance of rotating biological contactors using air and pure oxygen (Huang, Bates) 2686
Comparison of chlorine and chlorine dioxide as disinfectants (Longley, Moore, Sorber) 2098
Comparison of chlorine dioxide and chlorine in wastewater disinfection (Aieta, Berg, Roberts, Cooper) 810
Composite solutions (Editorial) 2067
Composting and disposal of industrial wastewater sludge (Nese, Frederick, Galandak) 183
Comprehensive analysis of nitrification of chemical processing wastewaters (Churchwell, Ford, Kachtick) 2726
Comprehensive basin-wide planning of sewer systems (Kameda) 884
Conflict between energy conservation and water pollution control standards (Lamb) (Feature) 656
Congressman James C. Cleveland: a clean water leader steps down (Monitor) 2618
Containment and treatment of the Love Canal landfill leachate (McDougall, Fusco, O'Brien) 2914
Contribution of wastewater discharges to ocean surface particulates (Bracewell, Selleck, Carter) 2230
Control of industrial wastewater in Osaka (Nanbo) 992

Control of mercury pollution in Japan and the Minamata Bay cleanup (Ishikawa, Ikegaki) 1013
Control of sludge bulking in the brewing industry (Schwartz, Popowchak, Becker) 2974
Cost-effective combined sewer overflow pollution abatement planning (Kaufman, Lai) 2220
Cost of water reclamation by advanced wastewater treatment (Argo) 750
Current research on advanced wastewater treatment in Japan (Kashiwaya, Annaka) 1008
Current status of water reclamation at Windhoek (van Vuuren, Clayton, van der Post) 661
Cyanide problems in municipal wastewater treatment plants (Lordi, Lue-Hing, Whitebloom, Kelada, Dennison) 597

D

Dallas, Tex., Operation Reports 17
Degradation of polychlorinated biphenyls by microorganisms (Yagi, Sudo) 1035
Design and performance of night soil treatment plants (Magara, Sugito, Yagome) .. 914
Design of an overland flow system (Tucker, Vivado) 559
Design of dechlorination units for power plant cooling streams (Tan, Berker, Whitaker) 299
Design of multistory settling tanks in Osaka (Matsunaga) 950
Determination of HClO plus ClO by bromination of fluorescein (Williams/Robinson) . 2167
Detoxification of specific organic substances by wet oxidation (Randall, Knopp) 2117
Development of sewer systems and treatment plants in Tokyo (Terada) 961
Digital on-line closed-loop control for wastewater treatment operation (Nelson and Mishra) 406
Disinfection of municipal wastewater effluents with ultraviolet light (Severin) 2007
Drainability of aerobically digested biological sludge from textile waste (Judkins, Hatcher) 2954
Dynamic modeling of industrial wastewater treatment plant data (Hansen, Fiok, Hovious) 1966

E

Effect of precipitation and evapotranspiration on a septic tank-sand filter disposal system (Brandes) 59
Effects of cadmium on the completely-mixed activated sludge process (Weber, Sherrard) 2378
Effects of chemical addition on the performance of settling tanks (Heinke, Tay, Qazi) 2945
Effects of chlorobrominated and chlorinated cooling waters on estuarine organisms (Liden, Burton, Bongers, Holland) 173
Effects of coal slurry on wastewater bacteria and bacteriophage (Margler, Rogozen) .. 53
Effects of continuous chlorination on entrained estuarine plankton (Erickson, Foulk) ... 44
Effects of nonsettleable biosolids on stream organisms (Friant, Patrick, Lyons) 351
Effects of water conservation on municipal wastewater treatment facilities (Bursztynsky, Davis) 730
Effects of water conservation on sanitary sewers and wastewater treatment plants (DeZellar, Maier) 76
Electrolytic ferrite formation system for heavy metal removal (Nojiri, Tanaka, Aato, Sakai) 1898
Energy autonomy in the wastewater treatment process (Bernard, DaVia) 587
Energy conservation and alternative energy sources in wastewater treatment (Rushbrook, Wilke) 2477
Engineering evaluation of new sludge treatment facilities (Ohmiya, Takahashi) 943
Enumeration of coliforms from streams containing acid mine water (Double, Bissonette) 1947
Environmental aspects of ocean dumping in the western Gulf of Mexico (Atlas, Brooks, Trefry, Sauer, Schwab, Bernard, Schofield, Meyer, Giam) 329
EPA consolidation of permits proposal—regulatory workhorse or bureaucratic nightmare? (Monitor) 230
EPA Inspector General Inez Smith Reid: "I'm not a super cop" (Monitor) 2069
EPA policy on land treatment and the Clean Water Act of 1977 (Thomas, Reed) (Feature) 452
EPA's integrated grants proposals—greater flexibility for states and municipalities? (Monitor) 647
Experience with belt filter presses in the pulp and paper industry (Miner) 2389
Extended dechlorination studies with granular activated carbon filters (Suidan, Cross, Chacey) 2634

F

Faculative waste stabilization pond design (Finney, Middlebrooks) 134
Fate and behavior of selected heavy metals in incinerated sludge (Dewling, Manganelli, Baer) 2552
Fate of suspended biological solids discharged to receiving waters (Costa, McKeown, Borton) 2432
Feasibility of water quality improvement in three Illinois rivers (Wilkin, Flemal) 293
Filterbelt pressing of sludge—a laboratory simulation (Halde) 310
Financing of wastewater treatment in Japan (Inaba) 878
Fitzpatrick, J. A., circular clarifiers (Response to Discussion) 2998
Flow and load variations at wastewater treatment plants (Munksgaard, Young) 2131

Forage production utilizing cheeseplant effluent under high altitude conditions (Greene, Delaney, Moyer, Borrelli)..... 2855
Full-scale ozone disinfection of wastewater (Rakness, Hegg)..... 502

H

Hays, A., wasteload allocation methodology (Communication)..... 2994
High pH treatment of combined water softening and wastewater sludges (Dague, Veenstra, McKim, Ashenmacher, Lannon) 2204
Hydraulic model for biological reactors: application to activated sludge (Tuan, Thanh, Lohani)..... 1931

I

Impact of sediments on dissolved oxygen concentrations following combined sewer overflow (Kreutzberger, Race, Meinholz, Harper, Ibach)..... 102
Implementation of EPA's municipal compliance program (Guthrie, Polvi, Lyons) (Feature)..... 2090
Increased oxygen transfer efficiency with coarse bubble diffusers (Rooney, Huibregtse)... 2315
Indicator bacteria and *Salmonella* in food-processing and domestic effluent (Hirn).. 48
Industrial waste pretreatment and EPA cadmium limitations (Lue-Hing, Zenz, Sawyer, Guth, Whitebloom)..... 2538
Inflation/environmental debate—again (Editorial)..... 645
Intergovernmental Personnel Act and water pollution control assignments (Monitor). 449
Ion-precipitate flotation of iron-cyanide complexes (Bucsh, Spottiswood, Lower)..... 2924

K

Kinetic model for chromate reduction in cooling tower blowdown (Kunz, Hess, Yen, Arseneaux)..... 2327
Kinetics of biodegradation of chlorinated organics (Shamat, Maier)..... 2158
Kinetics of phenol degradation by activated sludge in a continuous-stirred reactor (Beltrame, Beltrame, Carniti, Pitea).... 126

L

Las Vegas: growth plus clean water (Billi, Tusak-Gilmour, Wren-Jarvis) (Feature). 2291
Lead removal with adsorbing colloid flotation (Thackson, Wilson, Hanson, Miller)..... 317
Load factors and nondestructive testing of clay pipe (Sikora)..... 2965
Long-term effects of irrigation with wastewater (Reynolds, Braun, Campbell, Miller, Anderson)..... 672

M

Mathematical model for improving combined sewer systems (Nakamura)..... 899
Mathematical model of sequential loading in fixed-bed adsorbers (Crittenden, Wong, Thacker, Snoeyink, Hinrichs)..... 2780
Mechanisms and methods for polymer conditioning of activated sludge (Novak, Haugan)..... 2571
Microbial ecosystems responsible for anaerobic digestion and composting (Finstein, Morris, Cirello, Suler, Strom)..... 2675
Microcosm system study of algal bloom formation (Okada, Sudo)..... 1029
Minimizing sludge handling and energy requirements for AWT (Turnipseed, Rivinus, Brown)..... 364
Mt. St. Helens' effects on Washington's treatment plants (Monitor)..... 2310
Mt. St. Helens: How a wastewater plant coped with its aftermath (Day, Fisher) (Feature)..... 2082
Munch, W. L., circular clarifiers (Response to Discussion)..... 2998

N

Nagoya sewerage plan (Ozeki)..... 969
National Municipal Policy and Strategy: tightening the screws (Monitor)..... 3
Nitrification in rotating biological contactors (Mueller, Paquin, Famularo)..... 688
Nitrification in the sequencing batch biological reactor (Alleman, Irvine)..... 2747
Nutrient removal in suspended growth systems without chemical addition (Sutton, Jank, Vachon)..... 98

O

Odor control: an operator's guide (Henry, Gehr)..... 2523
Odor control of wastewater treatment plants (Ando)..... 906
On-site treatment on problem soils (Hansel, Machmeier)..... 548
Operational factors affecting biological treatment plant performance (Gray, Paul, Roberts)..... 1880
Operator training and plant start-up for a regional water reclamation project (Gunn, Robbins, Rehberger, Rippon)..... 2351
Operator training: principles and case study (Sherrard, Kerri) (Feature)..... 236
Optimization of grit removal at a wastewater treatment plant (Finger, Parrick)..... 2106
Organic contaminant behavior during groundwater recharge (Roberts, McCarthy, Reinhard, Schriner)..... 161
Oxygen uptake as a control parameter (Kharajian) (Communication)..... 823
Oxygen uptake rate as an activated sludge control parameter (Sherrard) (Communication)..... 2033

Ozone inactivation of cell- and fecal-associated viruses and bacteria (Foster, Emerson, Buck, Walsh, Sproul) 2174

P

Performance of a large advanced waste treatment plant (Eckmann, Zimmerman) 2717
Phosphorus and nitrogen removal at Cadillac, Michigan (Singhal) 2761
Physiological alterations of vegetative microorganisms resulting from chlorination (Haas, Engelbrecht) 1976
Pipe storage for equalization of backwash discharges to sanitary sewers (Randolph, Borders, Helm) 2193
Powdered versus granular carbon for oil refinery wastewater treatment (Grieves, Crame, Venardos, Ying) 483
Prediction of alkalinity changes in the activated sludge process (Scearce, Benninger, Weber, Sherrard) 399
Prediction of carbon column performance from pure-solute data (Famularo, Mueller, Pannu) 2019
Pretreatment of industrial discharges to publicly-owned treatment works (Ongerth, DeWalle) 2246
Progress in water quality (Editorial) 221

Q

Quarles and Jorling look ahead (Ward) (Feature) 1869

R

R&D at EPA: uphill responsibilities and downhill funding (Monitor) 442
Rapid-infiltration research at Flushing Meadows Project, Arizona (Bouwer, Rice, Lance, Gilbert) 2457
Reagan and Pollution Control (Editorial) 2837
Recent concepts and development of an automated biological monitoring system (Gruber, Cairns, Dickson, Hendricks, Miller) 465
Relationship between organic loading, dissolved oxygen concentration, and sludge settleability in the completely-mixed activated sludge process (Palm, Jenkins, Parker) 2484
Relative health risks of activated sludge treatment and slow-rate land treatment (Uiga, Crites) 2865
Removal or organic substances by biologically activated carbon in a fluidized-bed reactor (Tsezos, Benedek) 578
Renovation of wastewater by soil columns flooded with primary effluent (Lance, Rice, Gilbert) 381
Rotating-disc biological treatment of acid mine drainage (Olem, Unz) 257
Rural nonpoint source water quality in a southeastern watershed (Humenik, Bliven, Overcash, Koehler) 29

S

Safety considerations in handling activated carbon (Strudgeon, Lewis, Clinger, Albury) 2516
Sampling frequency optimization using a water quality index (Dunnette) (Communication) 2807
Scaleup in rotating biological contactor design (Wilson, Murphy, Stephenson) 610
Secondary treatment waivers: "And the winners are . . ." (Monitor) 2076
Selected organic pesticides, occurrence, transformation, and removal from domestic wastewaters (Saleh, Lee, Wolf) 19
Septage and wastewater treatment in the activated sludge process (Segall, Ott) 2655
Septage treatment at a municipal plant (Segall, Ott) 2145
Septic system longevity increased by improved design (Hill, Frink) 2199
Settling properties of extended aeration sludges (Pitman) 524
Sewer construction by shield method in Yokohama (Miyakoshi) 923
Sewer user charges in Osaka (Takesada) 985
Shifting emphasis to ground water (Editorial) 441
Shock load of chromium (VI) (Henney, Fralish, Lacina) 2755
Single-sludge pure-oxygen nitrification and phosphorus removal (Clarkson, Lau, Krichten) 770
Sodium and potassium ions effects on phosphorus transport in algal cells (Mohleji, Verhoff) 110
Solids handling systems for six different disposal options (Rimkus, Knight, Sernel) .. 740
Solids separation in activated sludge system design and operation (Busch, Irvine) 804
Start-up problems at a plant treating food-processing wastewater (Stover) 249
Start-up problems of sludge dewatering facility (Hansen, Smith, Garrison) 2558
Statistical approach to infiltration/inflow analyses (Nute) 2507
Stoichiometry and kinetics of biological waste treatment (Irvine, Alleman, Miller, Dennis) 1997
Stormwater pollutant load-runoff relationships (Bedient, Lambert, Springer) 2396
Supervision and control system at the Kanagawa wastewater treatment plant (Hattori) 931
Synthesis of waste treatment systems by implicit enumeration (Rossman) 148

T

Tannery wastewater treatment by the oxygen activated sludge process (Kashiwaya, Yoshimoto) 999

The Federation is alive and well (Scott) (Presidential Message) 2298
The Japan Sewage Works Agency—its role and activities (Kubo) 873
The Literature Review Issue (Editorial) 1069
The relationship of design capacity to effluent quality (Heath) 2270
The role of adsorption in biologically extended activated carbon columns (Lowry, Burkhead) 389, 2816
The role of agricultural sediments and chemicals in eutrophication (Bachmann) (Feature) 2425
Total energy concept at the Joint Water Pollution Control Plant (Adams, Eppich, Garrison; Gratteau) 1937
Total nitrogen removal in a multi-channel oxidation system (Applegate, Wilder, DeShaw) 568
Toxic inhibition of anaerobic biodegradation (Pearson, Chang, Gautier) 472
Toxicity of dissolved ozone to fish eggs and larvae (Asbury/Coler) 1990
Toxicity of landfill leachates (Cameron, Koch) 760
Toxics—truth and consequences (Monitor) ... 1857
Trace metals and anaerobic digestion of leachate (Cameron, Koch) 282
Trace organics removal by advanced wastewater treatment (McCarty, Reinhard) ... 1907
Trade-offs in sludge thickening and transportation/reuse systems (Leininger, Nehm, Schellpfeffer) 2771
Treatability of Type A zeolite in wastewater—Part I (King, Hopping, Holman) 2876
Treatability of Type A zeolite in wastewater—Part II (Holman, Hopping) 2887
Treatment plant odors and neighbors: a case history (Luthy, Haworth, Avila, Moshiri, Lewinger) 1923
Tube settlers in secondary clarification of domestic wastewaters (Mendis, Benedek) 1893
Type A zeolite in the activated sludge process I: treatment parameters (Carrondo, Perry, Lester) 2796

U

Ultra-high-rate filtration of raw and combined sewer overflows (Innerfeld, Ruggiero) ... 2930
Unique design features of Kobe's municipal wastewater treatment plant (Nakai) 955
U.S. Geological Survey—the other water quality agency (Monitor) 650
Use of bench-scale digesters to evaluate full-scale digester performance (Murk, Frieling, Tortorici, Dietrich) 2709
Use of benthos in lake monitoring (Wiederholm) 537
Use of equivalent BOD as a new waste management tool (Goldsmith, Watson) 372

V

Velocity dependence of phosphorus transport in a packed-bed reactor (Overman, McMahon, Chu) 2471
Volatile ammonia losses from surface-applied sludge (English, Koelliker, Miner) 2340

W

Wasteload allocation, methodology 2994
Wastewater services as a utility (Editorial) .. 1855
Wastewater treatment plants and policies of Kyoto (Yoneda) 978
Wastewater treatment works in Japan: status and outlook (Tamaki) 862
Water disinfection—current practices (Monitor) 1865
Water pollution control in Japan (Hayashi) (Feature) 850
Water quality and western energy—what are the trade-offs? (Monitor) 8
Water quality conversion matrix of aerobic biological processes (Tambo, Kamei) 1019
Water quality criteria and standards development: trying to make a difficult approach manageable (Monitor) 2418
Welcome the 1980s (Scott) (Feature) 15
WPCF Conference: back to basics (Monitor) 2840
WPCF position papers progressing (Monitor) 2843
